

Mumen Wehbe

M.Sc. in Structural Mechanics

Mechatronics Engineer

ABOUT ME

Graduated in mechatronics engineering and holding a Master 2 in Structural Mechanics in Paris, I possess solid practical and research experience. My background includes developing real-time interactive Digital Twins with Isogeometric Analysis (IGA), authoring research on projection-based Reduced Order Modeling (ROM), designing advanced robotics curricula, and engineering photovoltaic solar systems. Passionate and rigorous, I leverage my skills in Python, C++, JS, simulation solvers, and FEA to solve complex engineering challenges.

SKILLS

- C++
- PYTHON
- Matlab
- SolidWorks
- Abaqus
- MSC PATRAN/NASTRAN
- COMSOL
- SAM Modeling
- Web Design
- Microsoft Office

LANGUAGES

English (Fluent)
Arabic (Native)
French (Intermediate)

EDUCATION

- (2024 – 2026)
LE CNAM – PARIS, FRANCE
MASTER'S DEGREE IN MECHANICAL ENGINEERING (M2)
Grade: **A-**
- (2018 – 2022)
CYPRUS INTERNATIONAL UNIVERSITY – NICOSIA, CYPRUS
BACHELOR OF SCIENCE IN MECHATRONICS ENGINEERING (BSC)
Grade: **A**

PROFESSIONAL EXPERIENCE

- (03/2026 – 09/2026)
R&D ENGINEER INTERN – DIGITAL TWIN & ISOGEOMETRIC ANALYSIS (IGA)
LE CNAM (EPN04 LABORATORY) – PARIS, FRANCE
 - Engineered an interactive 3D Web Digital Twin platform combining Isogeometric Analysis (IGA) and projection-based Reduced Order Modeling (ROM/POD/hyper-reduction).
 - Developed a native JavaScript 2D IGA computational core executing in sub-10 ms (< 10 ms online resolution, achieving an 80x–120x computational speedup).
 - Coupled real-time multiphysics parameters with a Three.js 3D web interface and a physical 3D-printed demonstrator.
 - Authored M2 Research Thesis and draft journal publication on parameterized ROM and hyper-reduction for CMAME.
- (11/2022 – 02/2023)
ROBOTICS & STEM INSTRUCTOR
STEMA & FUN ROBOTICS – DUBAI, UNITED ARAB EMIRATES
 - Designed and implemented advanced robotics curricula (Vex IQ, Python) and led interactive workshops at the Sharjah International Book Fair.
 - Coached student teams for the Vex V5 competition (achieving prestigious awards in 'Excellence' and 'Design' categories) and provided custom training sessions.
- (07/2022 – 08/2022)
SOLAR ENGINEER
ALEMDAR TEKNIK – NICOSIA, CYPRUS
 - Designed and supervised residential solar PV installations for on-grid and off-grid systems, utilizing SAM modeling for performance analysis.
 - Diagnosed and resolved complex technical issues in photovoltaic systems (inverters, batteries, and panels), ensuring optimal energy yield.
