

Mumen Wehbe

M.Sc. Student in Structural Mechanics

Mechatronics Engineer

ABOUT ME

Graduated in mechatronics engineering and currently pursuing a Master 2 in Mechanics in Paris, I possess solid practical experience. My background includes designing advanced robotics curricula, coaching award-winning student teams in competitions, and engineering on-grid and off-grid connected solar systems. Passionate and rigorous, I leverage my skills in Python, SolidWorks, and systems design to solve concrete engineering challenges.

SKILLS

- C++
- PYTHON
- Matlab
- SolidWorks
- Abaqus
- MSC PATRAN/NASTRAN
- COMSOL
- SAM Modeling
- Web Design
- Microsoft Office

LANGUAGES

- English (Fluent)
- Arabic (Native)
- French (Intermediate)

EDUCATION

- (2024 – Present)
LE CNAM – PARIS, FRANCE
MASTER'S DEGREE IN MECHANICAL ENGINEERING (M2)
Grade: A-
- (2018 – 2022)
CYPRUS INTERNATIONAL UNIVERSITY – NICOSIA, CYPRUS
BACHELOR OF SCIENCE IN MECHATRONICS ENGINEERING (BSC)
Grade: A

PROFESSIONAL EXPERIENCE

- (04/2026 – Present)
R&D INTERN – DIGITAL TWIN & ISOGEOMETRIC ANALYSIS (IGA) – PARIS, FRANCE
LE CNAM (EPN04 LABORATORY)
 - Reduced Order Modeling (ROM) via Isogeometric Analysis (IGA) and hyper-reduction (ECSW, DEIM, Gappy POD) of structures in large displacements.
 - Development of a native JS 2D IGA computational core for real-time online resolution (< 10 ms, 80x–120x speedup).
 - Design of an interactive Digital Twin (web 3D Three.js, 26 simulation modules) coupled with a 3D-printed physical demonstrator.
 - Metrological validation and convergence of solvers on reference test cases (Kirsch, non-linear structural beam bending).
- (11/2022 – 02/2023)
ROBOTICS & STEM INSTRUCTOR – DUBAI, UNITED ARAB EMIRATES
STEMA & FUN ROBOTICS
 - Designed and implemented advanced robotics curricula (Vex IQ, Python) and led interactive workshops at the Sharjah International Book Fair.
 - Coached student teams for the Vex V5 competition (achieving prestigious awards in 'Excellence' and 'Design' categories) and provided custom training sessions.
- (07/2022 – 08/2022)
SOLAR ENGINEER – NICOSIA, CYPRUS
ALEMDAR TEKNIK
 - Designed and supervised residential solar PV installations for on-grid and off-grid systems, utilizing SAM modeling for performance analysis.
 - Diagnosed and resolved complex technical issues in photovoltaic systems (inverters, batteries, and panels), ensuring optimal energy yield.
